APRIL PRICE INCREASES.

Dear customer,

Given the current market conditions we know how important it is that you are provided with advanced notice of any significant price changes. We are therefore advising you of some price increases on products that are planned to come into effect on April 1st 2023.

As always, we are working hard behind the scenes with our suppliers to minimise all increases but we wanted to let you know the current projected increases to allow you to plan accordingly.

Please note, the below increases do not apply to all products or suppliers within the categories and only highlight the most relevant price increases.

NATIONAL INCREASES

Product Category	Price Increase
Wool insulation	Up to 15%
Foil insulation	Up to 5%
Building chemicals	6%
Lead delivery surcharge	£30 per tonne

These increases will vary depending on your location, please speak to your nearest branch for more information.

REGIONAL INCREASES

Product Category	Price Increase
Aggregates	Up to 7.5%

Why we're increasing our prices.

The biggest reasons noted by our suppliers for the above increases are the ongoing challenges around rising global raw material costs, increased labour costs, the devaluation of GBP vs. USD as well as the uncertain outlook on the year affecting national and global supply chains.

Profit Checker.

Using the Build Aviator estimating service not only saves you time and helps you win more work but also ensure you stay on budget through the build. Once you've won the job after using Build Aviator the Build Kick-Off process begins for free. Closer to the build start date, Build Aviator will make sure any new information is put into the new estimate and update it with the latest material prices so you can see any difference in profit. A comparer report detailing this will be generated to help you have that conversation with your client.

Keeping up to date.

We look forward to continuing to work with you.
